

Letting others see you

COMPANY PROFILE

CREAT

BRANDING LIMITED

Who is CREAT

Creat Branding is a company that capitalizes on building a strong brand for other companies. Brand that is; relevant, Consistent, properly positioned, sustainable, credible, consistence, Inspirational, appealing, and unique.

Noticing customers come to know a brand through a range of contacts and touch points: personal observation and use, word of mouth, interactions with company personnel, online or telephone experiences and payment transactions it's important to have a strong brand that creates mental structures that help consumers organize their knowledge about a product, store, person, place or services in a way that clarifies their decision making and, in the process, provides value to the firm.

We walk a journey with our client from the development of the brand to the printing production of the advertising materials, promotional item, corporate gifts, office stationery, outdoor branding and to the marketing and awareness of the brand on the online platforms which are; website development, social media management, web based system development.

The company is comprised of highly skilled team of professional online marketers, developers, creative UI & UX developers, strategy and research departments, we also work in partnership with event management and interior design companies to bring a successful brand experience in building a strong brand.

The Journey

Vision

- Being the foremost company making branding the core of success in every business.

Mission

- Being the best in developing great brand personalities to companies, organizations, stores, people and places.
- Bringing transformation and developing connection between the company and consumers.
- Create a connection with your customers and employees.

Promise

- Creating competitive, independent and innovative brands that speaks mileage to the business and consumers in a fast and transforming world.

Values

Walking a Journey with our client to ensure their brand is consistent, credible and sustainable to the revolutionary world.

Ensuring the brand is directed and guided to build a strong brand with identity, personality and emotional connection with the consumer.

“Simply Letting Others
See You”

What We Offer

We offer three main type of services that forms the pillars of our company

1. Branding
2. Digital Marketing
3. Web and Digital Solutions

Branding

- We create a unique strong brand identity that is enduring and resonates with their target audience and stands out in the marketplace.
- It involves strategic planning and execution across various elements to differentiate the brand from competitors and build a strong connection with the target audience.

Our Approach

- **Strong Brand Identity:**
This includes the visual elements such as logo, colors, typography, and design that represent the brand's personality and values
- **Brand Positioning:**
We define where the brand stands in the market, how it's distinct from competitors, and its value proposition to the target audience.
- **Brand Voice and Messaging:**
We focus on the tone, language, and style of communication used by the brand to convey its message and connect with consumers.
- **Brand Experience:**
Every interaction a customer has with the brand, including product quality, customer service, website experience, and more, contributes to the overall brand experience.
- **Brand Consistency:**
Maintaining consistency in brand elements, messaging, and customer experience across all touchpoints to reinforce brand identity and build trust.

Digital Marketing

- We help create digital marketing strategies for other companies to reach and engage target audiences, promote products or services, and achieve business objectives.
- Through our digital marketing we are able to track real-time performance, manage costs enhance scalability, and the ability to personalize marketing efforts based on consumer behaviors and preferences.

Our Focus

- **Search Engine Optimization (SEO):**
Optimizing website content and structure to improve visibility and organic (non-paid) search engine rankings, thereby driving more traffic to the website.
- **Search Engine Marketing (SEM)**
Using paid advertising on search engines (e.g., Google Ads) to increase visibility and drive targeted traffic by bidding on keywords related to the business.
- **Social Media Marketing (SMM)**
Utilizing social media platforms (e.g., Facebook, Instagram, LinkedIn) to engage with audiences, share content, run ads, and build brand awareness and relationships.
- **Content Marketing:**
Creating and distributing valuable, relevant, and consistent content (e.g., blogs, videos, infographics) to attract and retain a clearly defined audience, ultimately driving profitable customer action.
- **Email Marketing:**
Sending targeted emails to prospects and customers to nurture relationships, promote products or services, and encourage customer loyalty and repeat purchases.
- **Affiliate Marketing:**
Partnering with affiliates (other businesses or individuals) who promote your products/services in exchange for a commission on sales generated through their referrals.

Web and Digital Solutions

- We help create digital marketing strategies for other companies to reach and engage target audiences, promote products or services, and achieve business objectives.
- Through our digital marketing we are able to track real-time performance, manage costs enhance scalability, and the ability to personalize marketing efforts based on consumer behaviors and preferences.

Our Focus

- **Website Design & Development:**

We create visually appealing and user-friendly layouts that incorporate graphics, navigation menus, typography, color schemes, and overall aesthetics to enhance the user experience and reinforce brand identity.

On the development side, it is the technical aspects such as coding, scripting, database integration, CMS implementation, and e-commerce functionalities to ensure websites are functional, responsive, accessible, and compatible across various devices and browsers.

- **E-commerce Solutions:**

For businesses looking to sell products or services online, e-commerce web solutions involve designing and developing online stores, integrating payment gateways, implementing shopping carts, managing inventory, and optimizing the checkout process for a seamless customer experience.

- **Content Management System(CMS):**

CMS-based web design services involve designing and developing websites using content management systems (CMS) like WordPress, laravel, python enabling clients to easily manage and update website content without technical expertise.

- **Web Hosting and Domain Management:**

We offer web hosting services, domain registration, domain transfers, DNS management, and server maintenance to ensure websites are accessible, reliable, and perform optimally.
